Spectrum ’26 Cycling Race Rules and Regulations

Description:

The Spectrum ‘26 Cycling Race is held as a part of the IISc sports tournament, Spectrum. There are four categories.

- Men Road bike
- Women Road bike
- Men Hybrid/ Mountain bike
- Women Hybrid/ Mountain bike

The event has two parts:

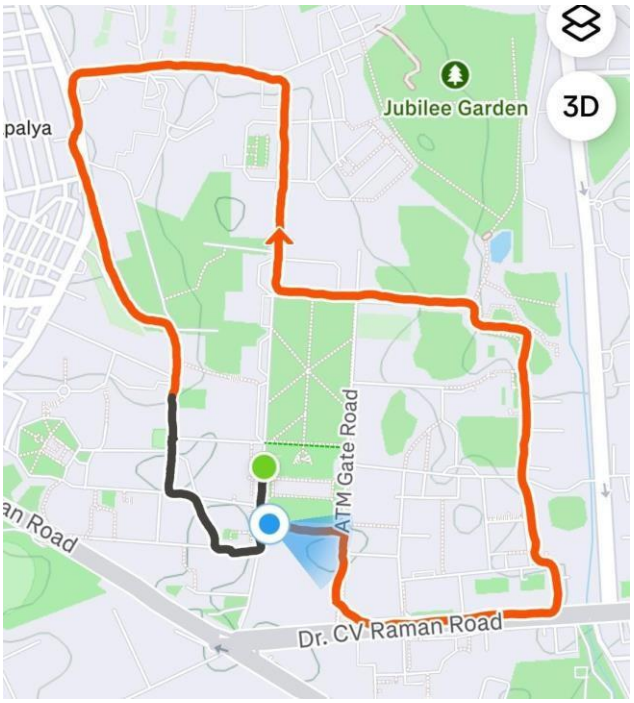
- Qualifiers
- Finals

Dates: TBD

Qualifiers will be held only if the number of participants registered exceeds 20 per category. Participants must ensure that they get **cycling helmets** for the race. Your bike must have working brakes. This is to ensure the safety of the participants. **The event might be postponed in case of rain.**

Route:

The route for qualifiers and finals. The route is designed to include fast straights, tricky turns and a few short climbs, and participants are requested to exercise caution.



Participants are required to assemble in front of the main building, at least 10-15 minutes before their start times, given in the excel sheet shared in the group.

For qualifiers, the race starts in front of the entrance to library on Gulmohar Marg, and the loop given above, is traversed **two** times, and before entering the third lap, the participant must head straight where the track ends in front of the entrance to main building on Gulmohar Marg.

Qualifiers will be an Individual Time Trial (ITT), where the participant is given one chance to

go through the route and aim to complete it in their best possible time. In case of any issue during qualifiers, where the participant feels that their trial has been affected by traffic obstructions etc, the participant may be allowed to give another try, final decision will be in the hands of the cycling event organizing committee.

Note:

- The number of laps in this qualification time trials is **2** and for the final road racing
    - ❖ Men Road bike 7+1
    - ❖ Women Road bike 4+1
    - ❖ Men Hybrid/ Mountain bike 5+1
    - ❖ Women Hybrid/ Mountain bike 2+1

- There will be a separate category for road bikes and non-road bikes and will distinguish based on drop handlebars only. If less than 5 road bike participants register per category, then all participants will have to race as a part of a single category.

General Instructions:

- Please follow the route. Volunteers will note racing numbers of participants at various checkpoints to ensure that there is no route cutting.
- Participants should ensure that they bring water/glucose and other essentials.
- Racing numbers will be distributed before the beginning of each slot. Reporting time will be intimated. At this time, safety instructions or any changes to route will be announced. All participants are required to report at this time irrespective of the start time.

Rules:

- Helmets are mandatory. No helmet, no ride. Make sure your helmet fits well. A bad helmet fit will not help you if you crash. If you don't have a helmet, mention it in the form, it will be arranged.
- Your bike brakes must be in working condition.
- The only restriction on bikes is that they should not be electrically assisted: i.e., no battery/fuel powered motors/e-bikes.
- Qualifier:
    - Starting times will be provided at least a day before the event and the race timer will start at the mentioned time irrespective of the participant starting at that time or not.
    - Qualifier is a draft illegal race. This means there should be a minimum separation of at least 5 meters (ideally 50m) between riders. If you are overtaking the rider in front, do so quickly, else you will have to fall back.
    - The riders will have to gather at the entrance to Main Building, in Gulmohar Marg, do two loops in the route mentioned above, and then head straight where the track ends in front of the entrance to main building on Gulmohar Marg.
    - To ascertain no shortcuts were taken ride must be recorded and submitted to organizers on Strava/Wahoo/Komoot/Garmin/etc. Participants must make sure their device GPS sensor is working well, and GPS trace matches actual ridden path. (Certain older phones from 2019 or before having terrible GPS accuracy around main building and other parts of IISc, make sure your device is working well)
- Main Race
    - Racing numbers will be allotted to the participants. Place your race number in front of your handlebar and make sure it is not obstructed by brake cables. Zip ties will be provided for attaching the racing number to your bicycle.

- The race will be rolling start, and first lap will be behind a motorized vehicle maintaining a slow pace of 10 to 15 km/h before pulling away at E-block entrance. This is done so that all riders are aware of the route and any obstacles (sand/water/potholes/tight turns/mud/ combination of any of them) on the route.
- Like an F1 safety car race restart the rider on pole (fastest qualifier or previous IISc based Cycling Event winner) will dictate the pace after E-block and no one must overtake the pole. Shuffling around among non-pole finalists is permitted.
- Overtakes are permitted after the right turn towards Digits.
- Race must be recorded by all participants on their GPS device to ascertain no shortcuts were taken (ideally only 1st, 2nd, 3rd pos need to have a recording in case of claims of wrongdoing.
- Last lap warning will be announced when starting last lap.
- The winner is the rider who crosses the Finish line first (on Gulmohar Marg) drawn out of chalk powder after completing the set number of laps.
- Once the winner crosses the finish line, the right turn towards digits will be closed by volunteers and all lapped riders (if any) will finish the race at the end of their current lap (this rule will be imposed separately for general and Women's category).
